Subject: RE: OCSPP/OECA PFAS Check-In

I would like to add to the agenda for tomorrow that we discuss options for Clarke to transport the previously shipped red-tagged Anvil products from the distribution centers.

I know this issue was briefly mentioned last week, but we were recently contacted by Clarke's representative that they have selected a disposal facility where they would like to the Anvil products, and would like feedback from EPA on how best to proceed. Understand that these products are contaminated which complicates the matter. Thanks
